EDILTECO FLIES TO CANADA AT THE BIGGEST EVENT OF NORTH AMERICA: THE BUILDING SHOW, CONSTRUCT IN TORONTO

Also this year Edilteco will be present at The Building Show - Construct in Toronto with its unique know-how!

Every day in the world,

there are companies which choose Edilteco.

- They choose to be our Partner.
- They choose to produce our products under license
- They choose to offer our Brand to their customers.

At Construct, in Toronto you will find:

Politerm Blu

The only super-lightweight aggregate to produce lightweight thermal-insulating concretes composed of additivated virgin expanded polystyrene beads with guaranteed and certified characteristics. Be wary of imitations!

Isolcap Range

The lightweight thermal insulating ready to use base screeds are the result of the technology that makes our products unique in terms of quality, strength, performance and workability.

Protherm light

An excellent product for fire protection. It is a lightweight premixed thermal insulating plaster based on virgin EPS beads, water binders and special additives for mechanical application; suitable for both interior and exterior application.

We wait for you at Hall E - Booth 1225!
